

Local Groups for Home Educators

The local groups for home educators listed below have sites, pages or groups which give support in the area, details of any meetings, and general information. Note that many of the Facebook pages may require membership; this should be straightforward, and is intended to filter out advertisers, LEAs and those who do not have a genuine interest in home education. If you are asked to answer questions when you apply to join a group, please do so. Only the administrators will see the answers.

Groups are listed alphabetically by traditional counties within England followed by a few links for Welsh home educators, and the national sites for Scotland and Northern Ireland. Note that some groups cover more than one county. Contact https://home-ed.info/local_groups if you have a relevant site or web-page which would like included, or if any of the links don't work.

Note that this page is far from exhaustive. If you search in your browser, or in Facebook, you may well find other suitable groups. If you discover one not listed here, please contact me and if relevant, I will add it to this page.
